

Special Session on

Computer Vision and Pattern Recognition (VAPR 2017)

In conjunction with the 9th International Conference on Knowledge and System Engineering Hue, Vietnam, October 19-21th, 2017

Technical sponsored by Vietnamese Association for Pattern Recognition

Call for Papers

We are pleased to announce the Special Session on Computer Vision and Pattern Recognition (VAPR 2017) to be organized by the Vietnamese Association for Pattern Recognition jointly with the 9th International Conference on Knowledge and System Engineering (KSE 2017). This special session serves as an international forum to bring together researchers and experts for sharing their latest research findings and/or experimental results, consolidating potential collaborations, and to advance ongoing research dedicated to multimedia analysis, pattern recognition and related areas. We welcome papers that cover, but are not limited to, one of the following topics:

- Image and video processing
- Coding, compression and super-resolution
- Multimedia indexing and retrieval
- Knowledge representation for visual content analysis
- Event detection and recognition
- Object detection and tracking
- 3D computer vision system
- Camera network
- Medical and biological image analysis
- Face and gesture recognition
- Document image analysis and recognition
- Performance evaluation in multimedia analysis
- Semantic image segmentation and scene understanding
- Applications of computer vision and pattern recognition
- Computer vision-based Human Machine Interaction
